

30S AND M6 LINE STUDY: IMPROVEMENT CONCEPT EVALUATION

Please help us evaluate the improvement concepts that are presented at today’s public meeting. For the following improvement concepts, please rate each one on a scale of 1 to 5, where “1” represents an improvement that you *don’t* think is important in addressing your concerns about the 30s Line, and where “5” represents a very important improvement. This information will be used to assist the project staff in developing a recommended set of improvements for the line.

Rate each proposed improvement on a scale of 1 (not important) to 5 (very important):

SERVICE CONCEPT A: ENHANCE EXISTING SERVICES

Rating

- Supervisors Dedicated to 30s Line Stationed along the Route _____
- Direct Communication with Drivers _____
- Ability to Track Vehicles _____
- Ability to Add Vehicles to the System _____
- Ability to Hold or Turn-around Vehicles Mid-route _____

Additional Comments about Service Concept A: _____

SERVICE CONCEPT B: SPLIT THE LINE WITH OVERLAPPING ROUTES

Rating

- Split the 30s Line _____
- Overlap Each of the Lines _____

Additional Comments about Service Concept B: _____

SERVICE CONCEPT C: RAPID BUS SERVICE

Rating

- New High Frequency Limited Stop Service _____
- Replace Route Branches with New M5 and M7 Local Service _____
- Provide Signal Priority for Transit _____
- Provide Reserved Lanes and Queue Jump Lanes for Transit _____
- Provide Sidewalk Extensions at Some Stops _____

Additional Comments about Service Concept C: _____

SERVICE CONCEPT D: SYSTEM OF COORDINATED MARKET-BASED ROUTES

Rating

- Retain a High Frequency Route 34 _____
- New Local Routes 31 and 33 on Upper and Lower Wisconsin Avenue _____
- New Local Route M5 _____
- New Limited Stop Route 37 that By-passes Georgetown _____
- New Limited Stop Route 39 _____

Additional Comments about Service Concept D: _____

POTENTIAL OPERATIONAL CONCEPTS

Rating

- Increased Enforcement of Parking Restrictions _____
- Adjustments to Signal Timing at Intersections _____
- Improved Shelters _____
- Improved Safety and Security _____
- Better Customer Information _____
- Expanded Driver Training _____
- Operate Larger Buses During Rush Hours _____
- Reduce the Number of Bus Stops _____
- Operate Different Route Patterns During Rush Hours _____

Additional Comments about Operational Concepts: _____
